**GWHS  
PRESENTS THE  
1956 GECKO**

Although the yearbook staff has had no room of its own in which to meet, it has utilized an English classroom to provide a meeting place where policy could be discussed and page layout planned. Editor Elaine Roth and her co-workers decided early on a "contemporary trends" setting for the 1956 Gecko. Many long hours of planning and designing followed. The results . . . well, we hope they repay you for the weeks and months of anticipation spent looking forward to this issue.

ADVERTISEMENTS

Because our wisdom is yet a little insecure . . . because we are grow-  
ing now . . . perhaps a little too quickly . . . in our thinking . . . be-  
cause we have received it so constantly . . . at home and here at school  
. . . we wish to dedicate our yearbook . . . a mirror of this year's  
accomplishments . . . to our parents and teachers . . . the Parent-  
Teachers' Association of . . . George Washington High School.

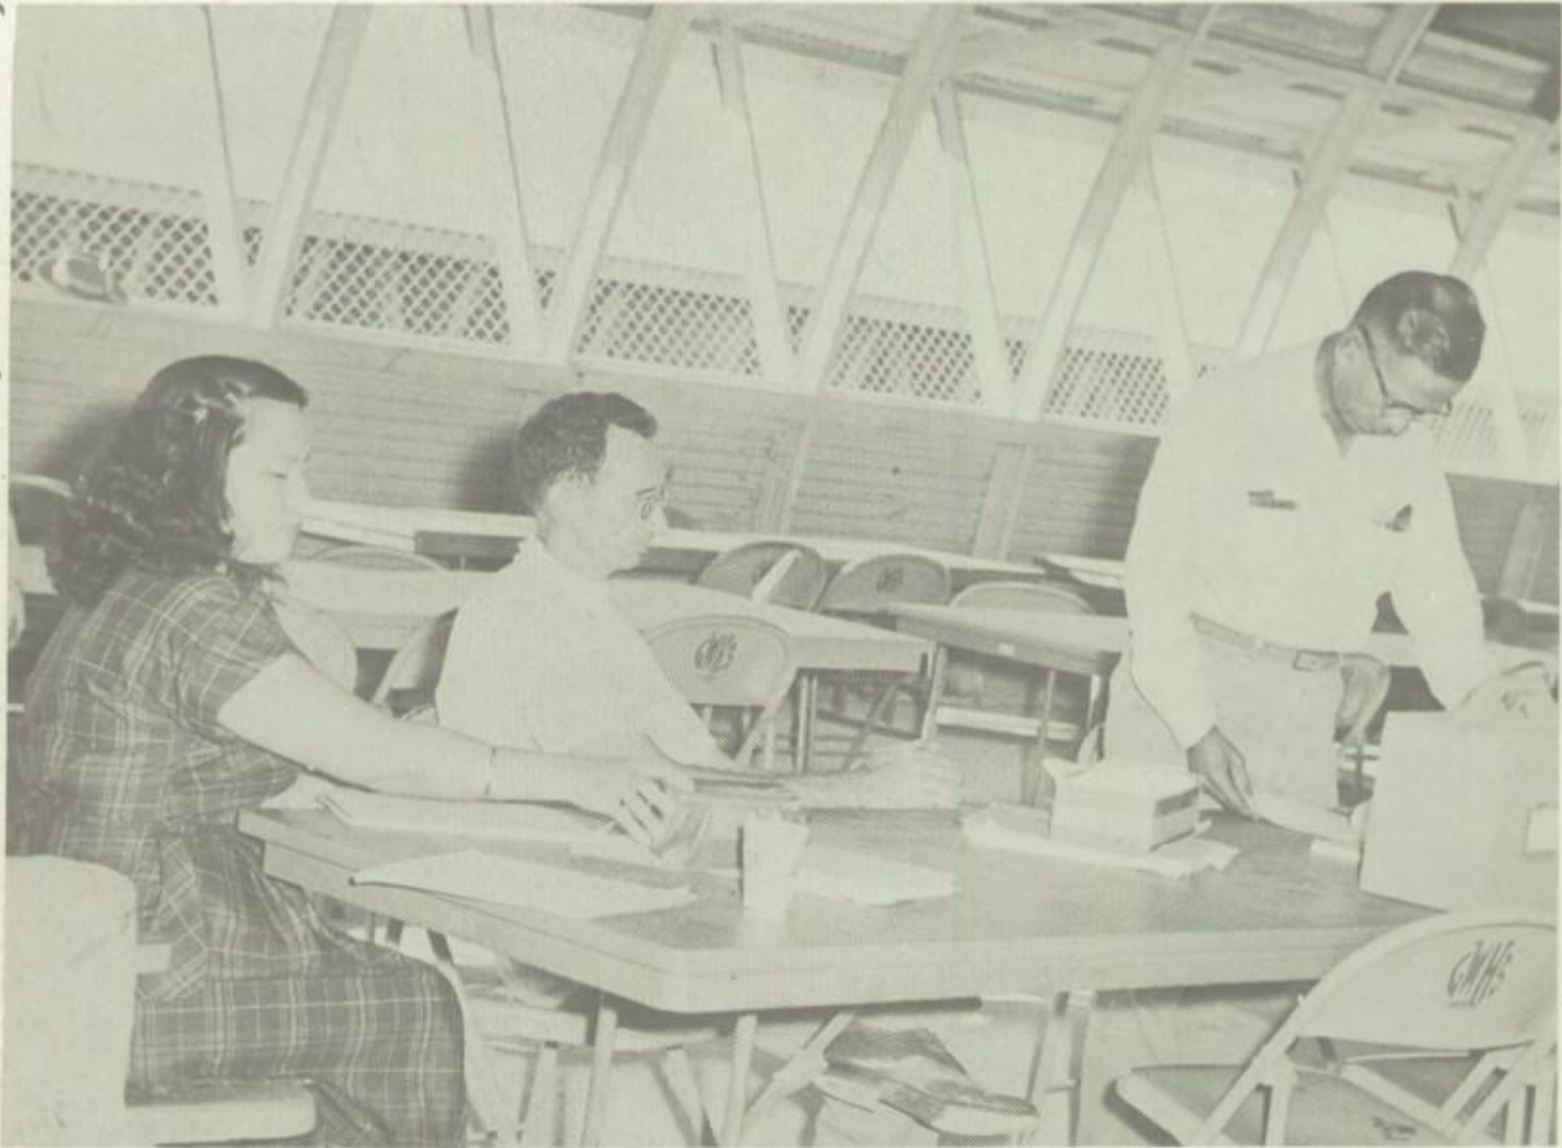

## PTA OFFICERS

Mrs. Romana P. Mendiola, Secretary; Lawrence Bock, Treasurer;  
Jose Leon Guerrero, Vice President; Jose Cruz, President, not pic-  
tured.

Teachers stopped to admire Mrs. Elvidge's beautifully appointed table before sampling its tasty contents at the official Governor's reception in the early autumn.

# FACULTY

# ADMINISTRATION

On the following pages you will catch a brief glimpse of the administration of our high school. As we all know, a school can only be as good as its component parts—both students and their instructors. We think that the progress that Guam has made in the last ten years is traceable to the advances made in education. We salute the many leaders who have given their time and patience in the planning and carrying out of the educational program at George Washington High School.

## BOARD OF EDUCATION

Left to right: Simon Sanchez, John S. Haitema, Mrs. Patricia M. Ehrhart, Tomas Santos, Paul Souder, Captain T. S. Lank, G. K. Bell.

*Principal* PAUL E. GETTYS

Mr. Gettys looks up from a typical busy day's schedule of a school principal. There is a constant demand on his direction in such matters as school policy, faculty meetings, budgeting, and an ever expanding curriculum designed to meet the needs of a constantly-growing student enrollment. With his duties as the captain of our academic ship—although he would be the last to admit it—there are too few hours for Mr. Gettys' school day. He likes his work because of the constant challenges it provides, and his enthusiasm is reflected in his friendly calm manner and always-ready smile.

*Vice Principal* J. L. G. RIOS

As Vice Principal, Mr. Rios has the responsibility of seeing to the general coordination of such diverse elements as school transportation, the faculty payroll, and custodianship—to name only a few. His area of operations is a vast one, being divided among the various school buildings, the grounds, and the office. His work often continues long after the rest of the campus population has gone home for the day. Behind him are more than 38 years of interested activity in education.

#### DEAN DOYLE W. GODDARD

Our "genial dean" is seen in a rare moment of relaxation, for his position as dean of students is an exacting one with a scope not ordinarily realized by us around him. Students know him as a man of his word, and fellow faculty members find in him a sympathetic and resourceful friend who is always able somehow to find time for a humorous yarn of hearty greeting.

Dean Goddard's home is Cape Girardeau, Missouri, where he received his B.A. degree at Southeastern Missouri State College.

#### MISS FLORENCE GILCHRIST *Dean of Girls*

Miss Gilchrist, whose home is Minneapolis, Minnesota, came to Guam in July of this year to fill a new administrative position at G.W.H.S. She was Girls' Counselor at Stephens College in Missouri for nine years and Girls' Dean at Wayne State College, Nebraska. She has attended the University of Minnesota, University of Colorado, University of Washington, and Hamline University.

Miss Gilchrist came to Guam because she is interested in the problems and triumphs of young Americans outside the continental limits of the United States. She has already been able to help students in countless ways; she is well-known as a ready friend to all who have come her way.

Volunteers work in the office during free periods as runners, taking emergency messages and summonses to students and faculty members in classrooms.

Secretaries: Pictured above are Mae Niderost, Sara Price, and Shirley Collins.

# CLASSES

The Senior Council's members have decided this year on specific class colors, a motto, and a flower. Their work has produced the Senior play, "Time Out for Ginger," and they have planned and sponsored numerous school activities.

## SENIORS

*Class Motto:* This is just the beginning and not the end.

*Class Colors:* Green and Gold.

*Class Flower:* Orchid.

Class president is Priscilla Tenorio. The senior officers are Johnny Perez, Herminia Garcia and Jose De la Rosa.

Senior faculty advisors Mr. Donald De Jong, Mrs. Lillie Ellen Gum, Mrs. Gladys Kempton, Mr. Lawrence Wilcoxin, Mr. Don Wright.

Dear Fellow Seniors:

We have worked together, striven together, for a successful career which has not yet been fully accomplished at this stage of our training. After four years of continuous effort to gain and develop our education, we have finally reached our goal, which is merely a notation of limited accomplishments. All of us realize that a high school education alone is not a stable assurance of success.

As we come to realize and incorporate these fundamental accomplishments and experimental findings into our conduct of life, we will find ourselves living in a new world with adult viewpoints which will enable us to realize wiser and better ethical ideals and social goals

Let us not be overwhelmed by the complexity of all this unique knowledge. Let us welcome it as a source of renewed faith and courage, for every effort and sincere struggle shows us that by adequately nurturing wholesome living we may attain robust health and happiness, and in turn build a more satisfying social life in the future.

Sincerely yours,  
PRISCILLA A. TENORIO

# DEPARTMENTS

elaine

The Art students this year completed several different projects, among them puppet-modeling, work with wire sculpture, clay modeling, wood block cuts, still life painting and drawing, and painting and drawing from real life.

## ART

The Art Department has facilities for making, glazing, and baking pottery made by students. Here three girls examine the kiln in M-1.

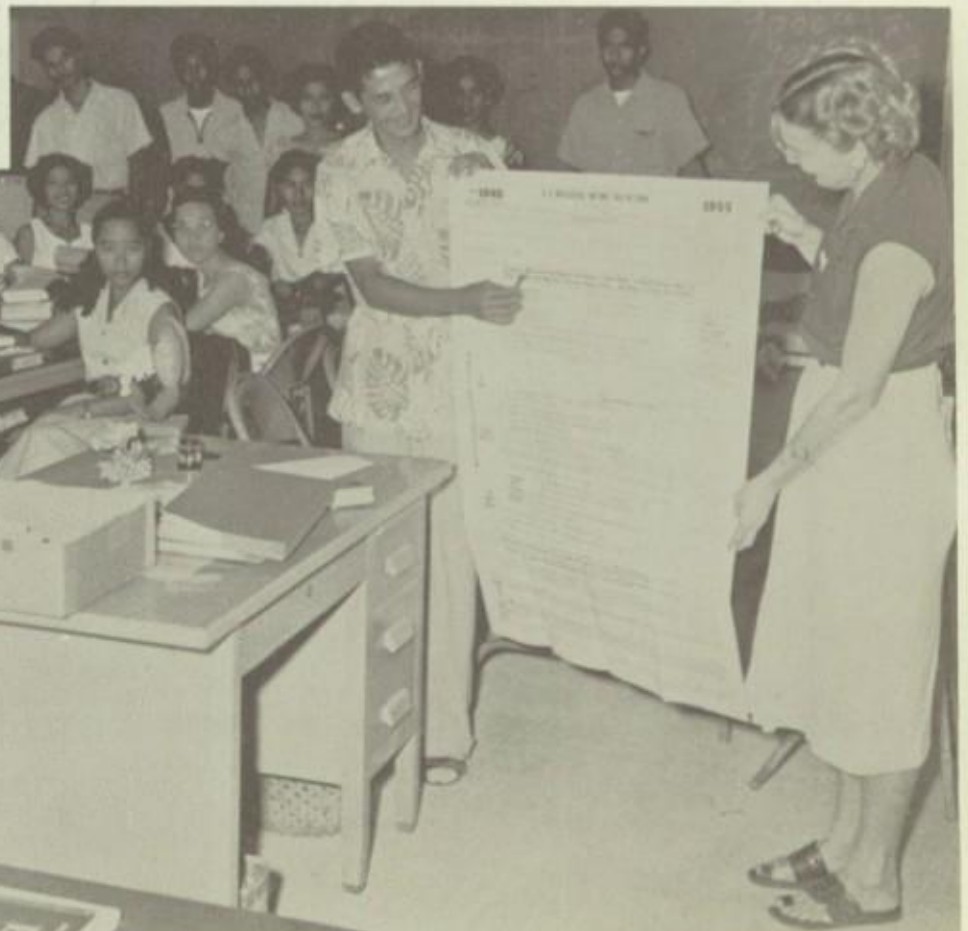

# COMMERCIAL

Here are only a few of the many G.W.H.S. students taking typing. Typing will be an asset to their future careers.

Learning how to use the mimeograph machine is only one of the many things that a student taking office practice has to learn.

Mr. Bob Hino, head of the tax section of the Government of Guam, talks with some commercial students about filing and processing tax returns.

Caution you "wreckless" drivers of G.W.H.S.! The drivers' education students are learning the safe way to handle an automobile.

## DRIVERS' EDUCATION

Stop!—fooling around and sign up for this very useful course next year.

# ENGLISH

English is essential to daily living. That is one reason for our studying it all four years. Besides English, speech and journalism are also taught. Students learn to express themselves, to speak clearly, and enlarge their vocabularies, thus adding to the truth, "by their works you shall know them."

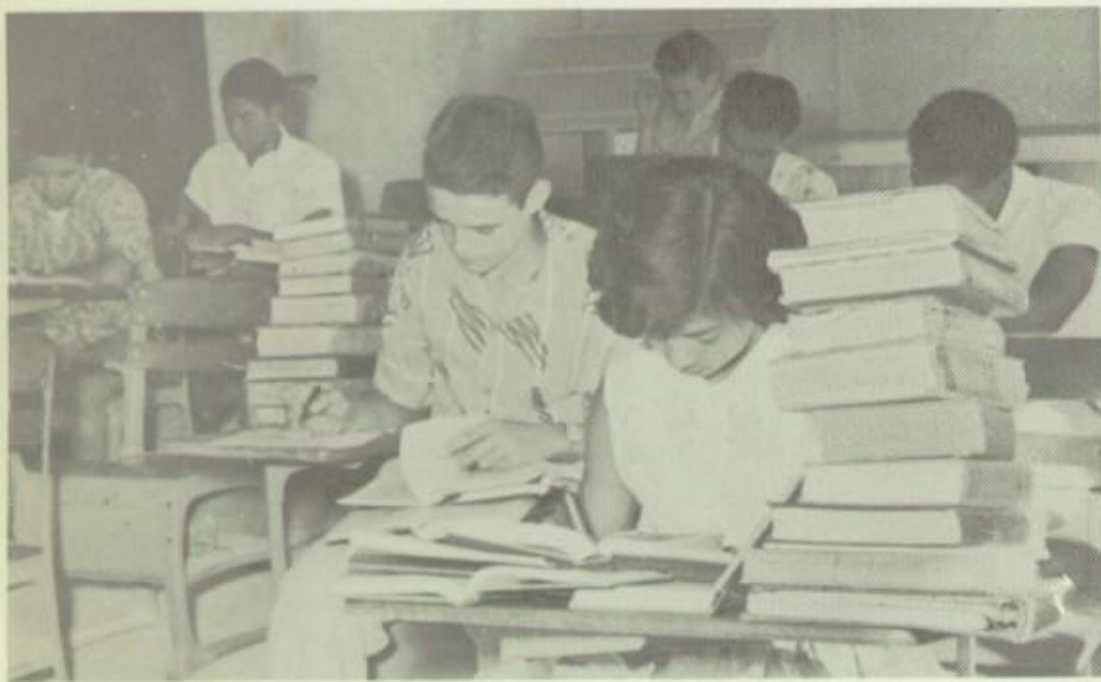

Late of "Mac Beth" are these three pretty witches over the pot in English Four, experimenting in drama.

# FOREIGN LANGUAGE

"—and then you drop *this* gizmo and add the other one—"

Both Spanish and Latin are at present being offered as foreign language courses. The students taking these subjects will use them, especially if they plan to attend college later. It is interesting, too, to realize many words in the English language have been borrowed from the Latin and Spanish tongues.

The girls in the Home Economics classes learn by doing, in this case waxing a floor in one of the rooms.

## HOME ECONOMICS

Food preparation, sewing skills, and house-keeping are learned through the year. The girls sell milk and ice cream to students at noon in the cafeteria as volunteers.

The student nurse in Home Nursing takes a patient's temperature while the other students learn by experience how to take good care of the patient so that they will be more successful wives and mothers.

## HOME NURSING

Mrs. M. J. Tobin, Home Nursing teacher, shows her students the correct way to hold a "baby." The girls will learn all about caring for children from infancy to adulthood.

All the problems are little ones to these Home Nursing girls.

# INDUSTRIAL ARTS

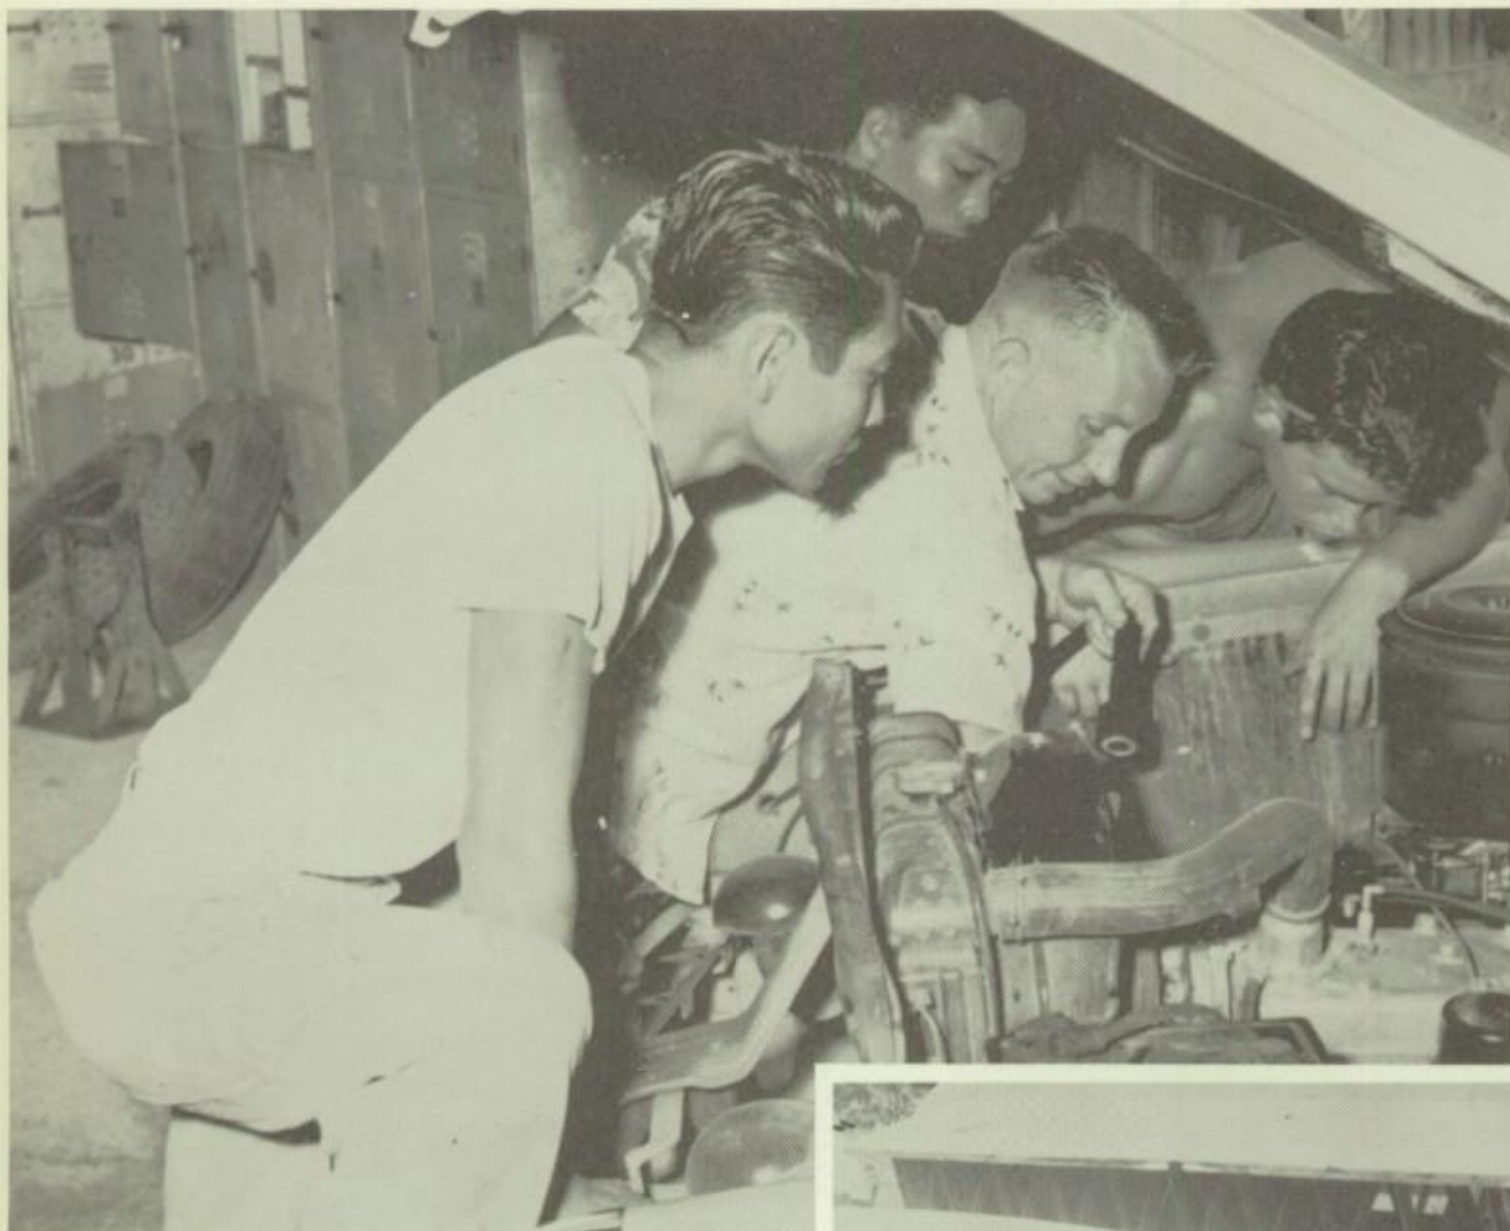

Anyone for a saw? The boys in the work shop are lined up to check out their tools. These students have been learning the correct way to handle and work with these tools so that they can prepare for a profitable and satisfactory future.

Mr. Robert Thaxton shows some of his students the correct way to use the saw. "Use the right tool for the job," he urges his pupils.

Mr. Koch, auto mechanics teacher, shows some of his students the intricacies of the modern automobile engine and how to repair it if it should break down.

## INDUSTRIAL ARTS

Students disappear frequently under cars in class, taking advantage of the "learn by doing" policy of the department.

# L I B R A R Y

Students read from the books and magazines from the G.W.H.S. library to make wise use of leisure time.

The library helpers are in the library to assist the librarians and the students who wish to check out books.

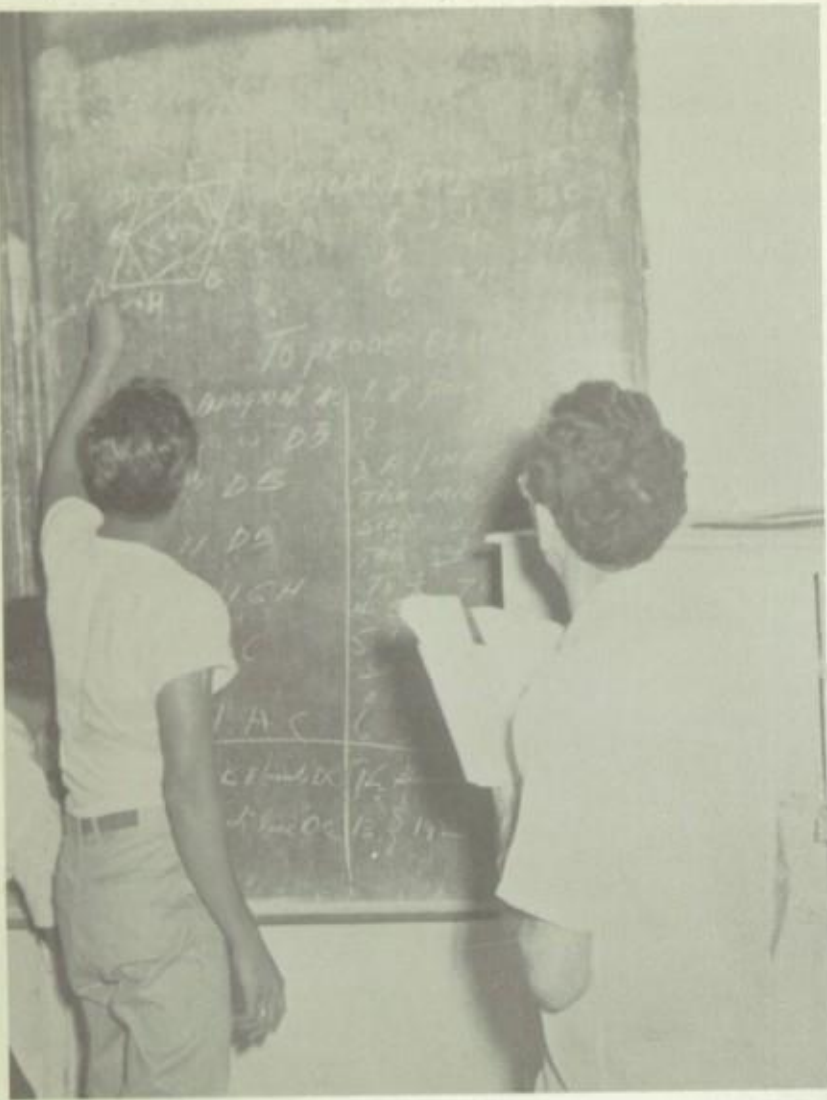

Two library science students help prepare new books for library and classroom use.

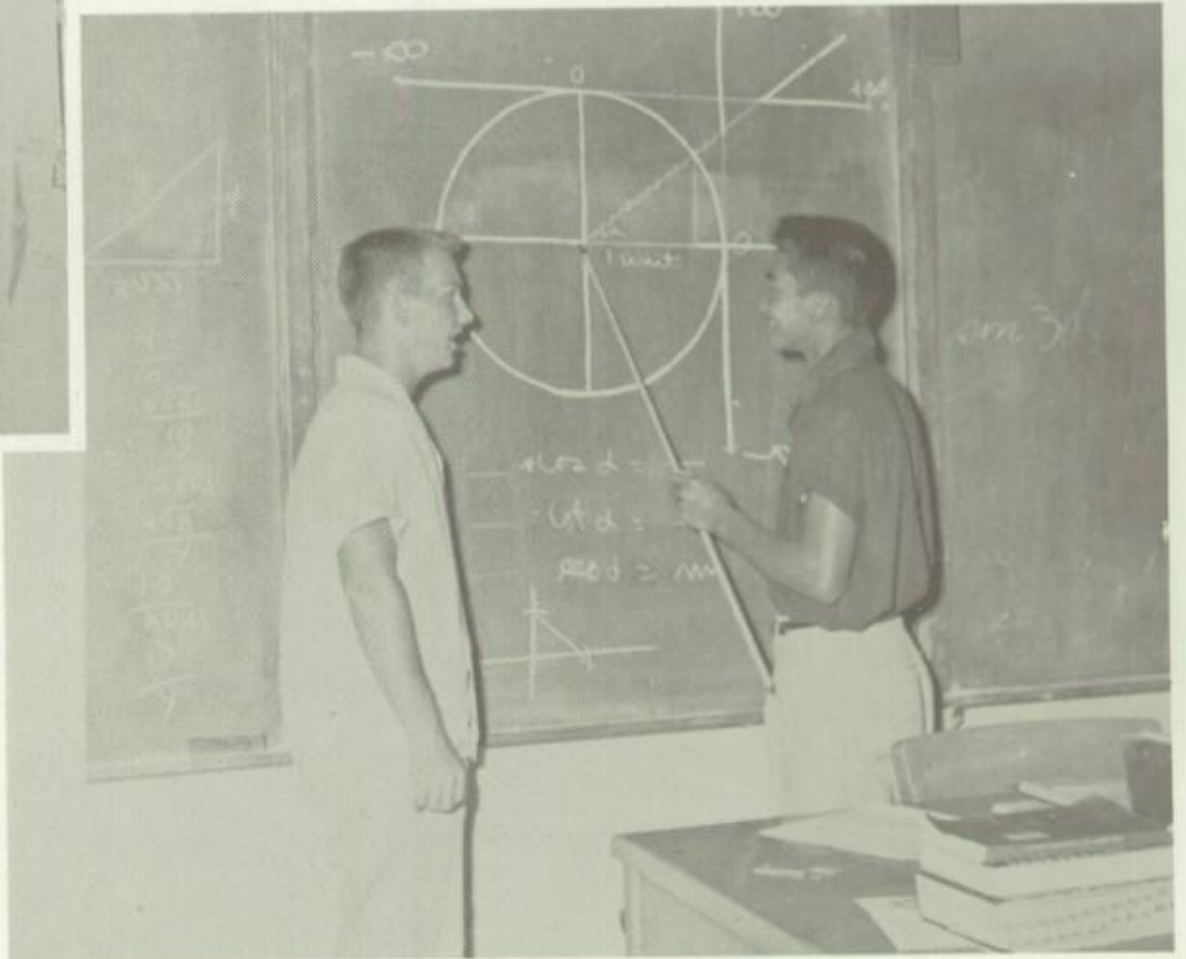

# MATHEMATICS

Explaining a tough one isn't much fun, but it's gratifying in the end.

Two squares working with a circle.

Our Hut-I Math teachers.

Every student taking a mathematics course is certain to use it many times throughout his lifetime. At our school a variety of the sciences of numbers is offered, for each person's needs. The harmony of the heavens may well be calculated in numbers.

# MUSIC

In February and March the G.W.H.S. band made well-appreciated field trips to several of the elementary and junior high schools around Guam.

If you should happen to pass Hut P, you will hear our fine band or orchestra. They proved to be invaluable assistance at Christmas time, and versatile as these musicians are they also came to the aid of the yearbook salesmen. To help stimulate sales, they grouped together as a German band and paraded with the Gecko workers.

# SCIENCE

Chemistry students work out an intricate problem in the new F-1 laboratory.

We don't know what they're doing, do you?

Here at George Washington High School we have as excellent a chemistry and physics laboratory as could be found anywhere. Besides these two courses, biology and general science swell the curriculum listing.

The pass is complete and with rugged determination, our team scores!

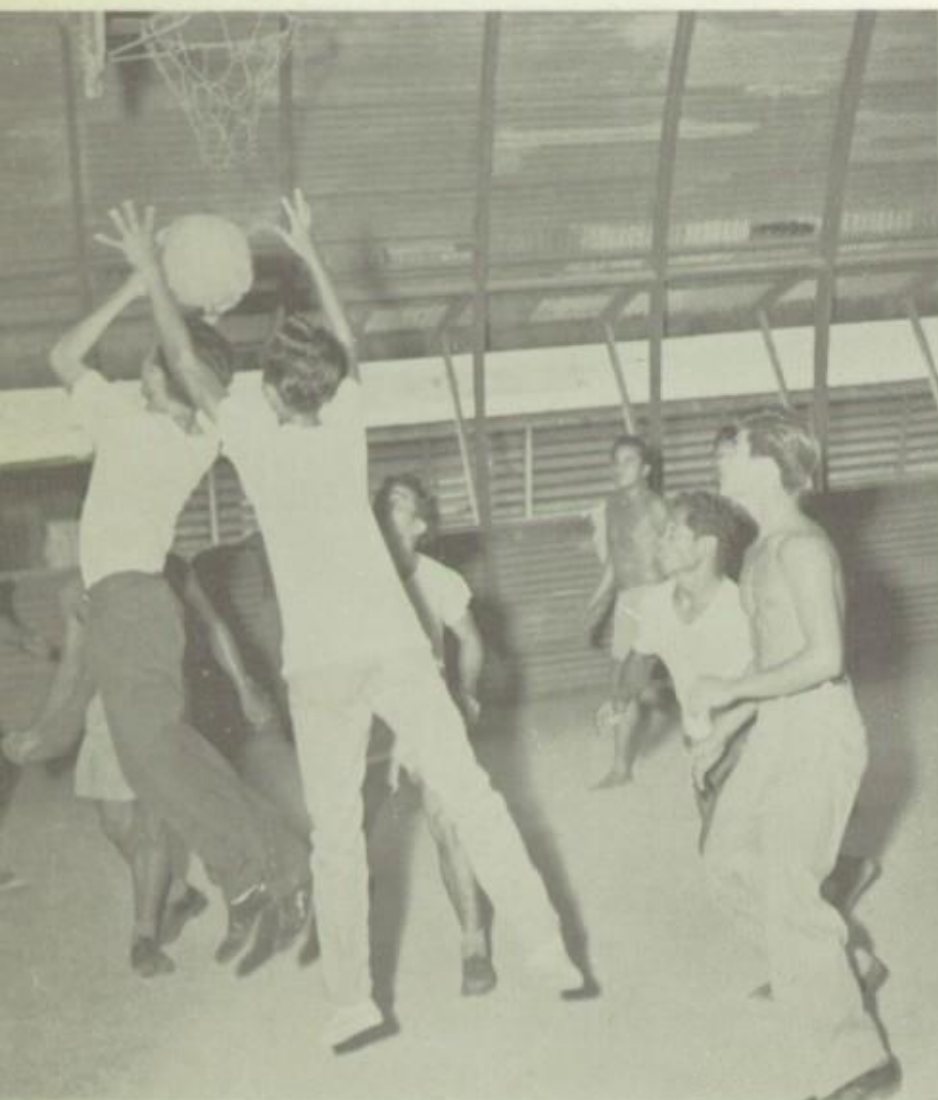

Although G.W.H.S. has limited sports facilities, and no interscholastic competition as yet, sports play a relatively important role here as they do in most Stateside schools.

We have a fine intramural program; the emphasis is placed on such sports as football, basketball and volleyball. Gymnastics is also becoming a great favorite among the students.

The highlight of each football season is, of course,

And it's good for two points!

Down! Set! Seven . . . nine . . .

# SPORTS

the annual Student-Faculty game, which always draws a large crowd. This year's capacity group of spectators was no exception.

Other sports in which equipment is still temporarily lacking are studied in the classroom where the rules may be thoroughly covered and presented so that the students obtain a greater knowledge and appreciation of them.

Basketball leads the field in late fall popularity. Spectators and players are plentiful in the gym at noon.

Up . . . and over! A hot game of volleyball is played in the boys' gym.

Ping pong's become the thing at George Washington, even evolving into the tournament bracket.

Students try their hand at a football accuracy throw under the watchful eyes of Coaches Yokel and Griffith.

Fore! This is the cry heard around G.W.H.S. as "Slammin' Sam" Martinez tries for a hole in one.

Dig those crazy frogmen? They're a trio of the G.W.H.S. Reef-Roamers.

They actually *got* something! Furshligger! No, not the fish.

# STICKERBURR BOWL

Student and faculty rooters watched tensely as the Student Champs kicked off to the much-dreaded faculty team last December 23 in the third annual Stickerburr Bowl game. This year went much the way of last year's game, the students winning 12-7.

Got him! This looks like the end—but for which team?

First and ten for the students, who have profited by the faculty's mistakes.

The faculty powerhouse included such stars as:

Hurricane Anderson	Wild Bill Meisner
The Ox Bettel	Otto Ostermann
Crusher De Jong	Elroy Crazy Legs
Flash Griffith	Pelowski
Out You Go Goddard	Bulldog Penick
Light Foot Hamann	The Cat Richards
Scat Back Honnaka	Shorthand Shafer
Homicide Hertslet	The Dutchman Sjoerdsma
High Voltage Koch	Tiger Thaxton
Killer Koppich	Oregon Bloughbot Surmeyer
Gecko Jaeschke	Glue Fingers Yokel

## GIRLS' SPORTS

Everyone loves a winner and from the pictures on these pages you may spot many.

Tournaments of basketball, volleyball, ping pong, badminton and softball highlighted the Girls' Physical Education program this year. The students themselves raised the money with which to buy medals to present to the winning teams of the various tournaments.

A big boost to the department this year is the new shower and the recently built dressing room facilities.

Something like this would shake anyone up! The girls practice tumbling in the gym and have more fun than almost anybody at it.

Shuffleboard gets under way on the gym floor.

Archery is one of the most popular sports with the P. E. students. "Oh," she shyly remarks, "somebody'll hit it eventually."

It's all good fun, although the loser looks a little dejected. Badminton is played on the covered porch of the gym.

There's always the race to be there firstest with the mostest when the girls play a game they all enjoy.

Ballroom and square dancing are both part of the program. These are offered in order to help the girls in social life and improve dancing techniques.

The faculty of the Physical Education Department plan activities carefully. Tournaments and contests are entered into enthusiastically by students.

Rain doesn't restrict activity at G.W.H.S.! The girls run races inside the gym on those days when outside races are not a possibility.

"Who was the fifth president?" is only one question asked in our several history classes. A variety of social studies are offered in our school. Civics, world history, Problems of American Democracy, and world geography, offer a wealth of facts and information for the students.

## SOCIAL STUDIES

# VOCATIONAL

Mr. Charles Jordon helps one of his students to learn some of the fundamentals of mechanical drawing.

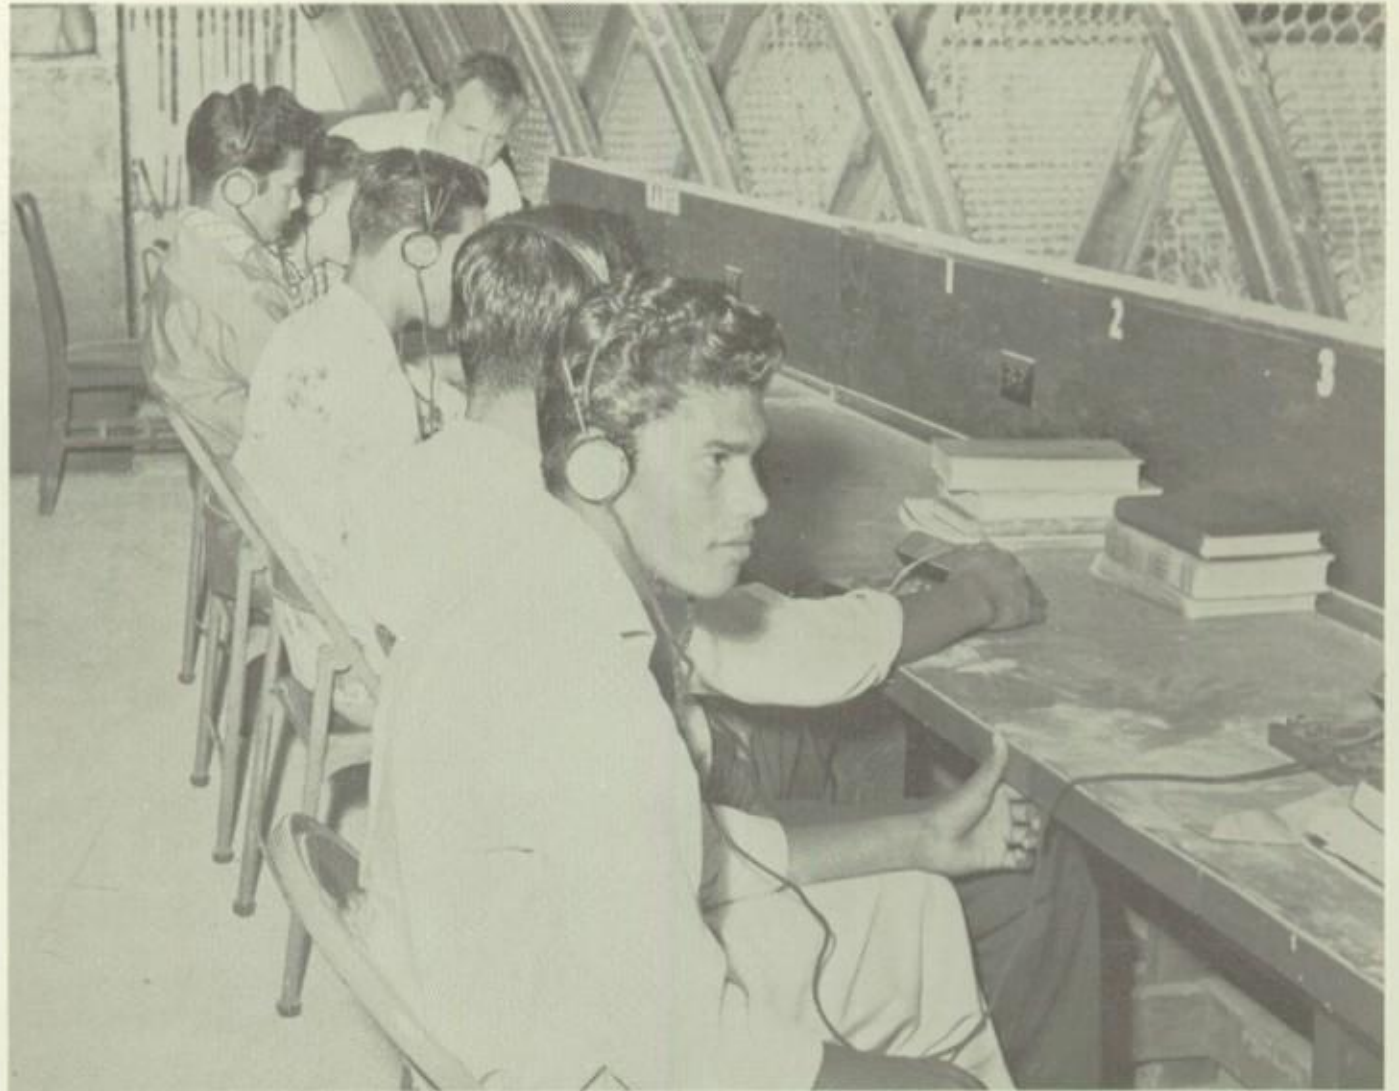

These future farmers of Guam are engaged in running samples of soil through a sieve.

Dean Goddard smiles approvingly as the boys of the Industrial Arts and Vocational Classes prepare to board the buses for a field trip.

A section of the Vocational Department teaches electronics to the students. Here some boys tune in the ether . . . a study guaranteed to put no one to sleep.

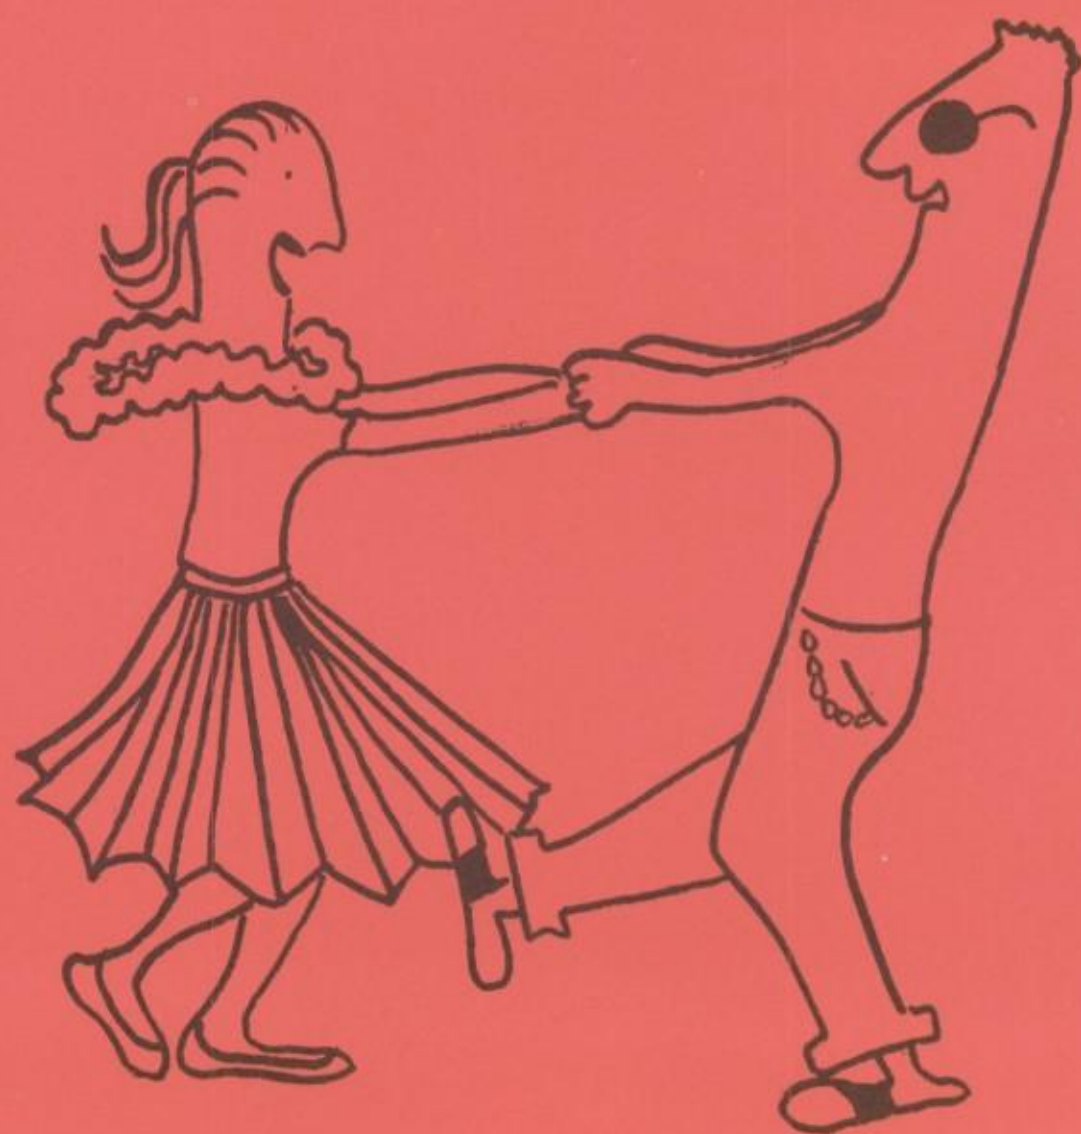

## VOCATIONAL

Th boys from the Agriculture classes on their field trip all got the chance to meet a cow first hand.

# ACTIVITIES

# STUDENT COUNCIL

A Student Council meeting in session with representatives from each of the classes in attendance.

President Francisco Cruz led the council this year.

The student body officers for 1955-1956 are installed in a ceremony on the school campus.

Mr. Donald Jaeschke sneers approvingly at Lyn Prochaska's choice of a cover fabric.

The ad staff assaults one of the downtown shops.

A general reaction to a general problem confronting the Frustrated Ones.

"What? Us worry?" was the cry in the Gecko office—or at least after the last copy shipment had been wrapped with tender care and trundled off to Texas and the Taylor Yearbook Company. The staff dropped in occasionally with their lunches and friends to play poker or even to work sometimes, leaving behind great mounds of dirty yellow paper, books and ruined copy forms.

The no less than strictly original cartoons infesting the GECKO are from the speedball pen of the editor, who has said of them, "... Yes, I know, but if you look at them *this* way and squinch your eyes just about shut and imagine ..."

Julie Manley typed fiendishly and scrounged through mountains of class pictures, actually finding things. Sue Sample wrote the sly copy, except for the comments on this page which the editor felt obligated to make. Mary Ann Jones used more yellow paper than anyone creating wildly impossible layouts which were used after all. Jan Johnson and Lyn Prochaska attended all of the fifth period "conferences" with their business paraphernalia and contributed greatly to the frivolity. Jack Hogan's elite automobile was given credit, along with Jack, for wearing the noteworthy rut between N-6 and Asan Photo. Mr. Donald Gum prowled the school with his notorious Rolliflex for the Gecko in his spare time when the Army left us with no photographer. Advisors Jaeschke and Kessel suffered quietly throughout the entire affair, glassy-eyed and gaunt, screaming, "Neveragainneveragain!" And then we were done.

# BANANA LEAF

Banana Leafers keep busy after copy is in setting headlines with the photo-type.

Banana Leaf advisor is Mrs. Lillie Ellen Gum. Mr. Donald Gum does the photography; Vivian Franquez and Richard Grahner supply art work.

Heading the Banana Leaf Staff are Business Manager Guadalupe Sablan, Managing Editor Susan Sample, and Editor-in-Chief Le Roy Brown, all pictured here.

Pancho Terlaje and Clementina Cruz go out to sell the Banana Leaf as all journalism students do at the end of each month.

The Speech Club boasts one of the largest memberships among the school's clubs. Advisor is Mrs. Elizabeth Cunningham.

## SPEECH CLUB

Speech Club members know the importance of a correct and confident speaking manner, and they take advantage of each opportunity to practice their skills.

The F.H.A. remains one of the school's most active groups again this year.

## FUTURE HOMEMAKERS OF AMERICA

The F.H.A. girls sold corsages in the cafeteria during the noon hour on the day of the Sweethearts' Ball.

Members of the club cradle and candle eggs, examining them for defects and determining their grade.

## FUTURE FARMERS OF AMERICA

Mr. Frank Surmeyer demonstrates to the boys of the F.F.A. how to graft a branch to a tree.

# ART CLUB

Caroline Custer, president of the Art Club, conducts a general meeting.

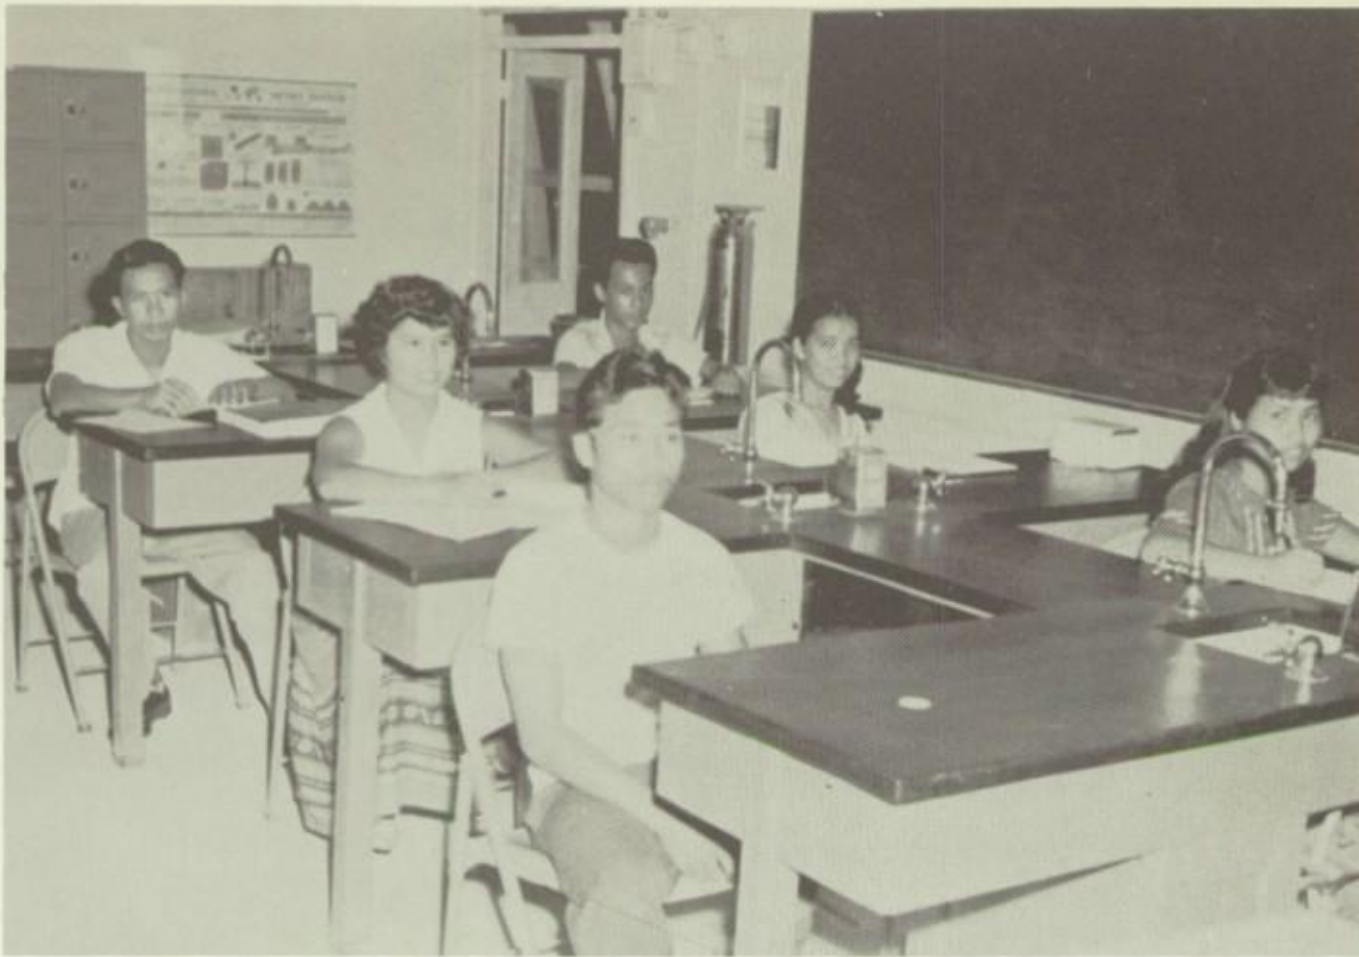

Members of the Art Club plan a field trip on the island to include a day of sketching.

Three Art Club members examine some products of a kiln in M-1.

The Science Club members have adequate opportunities to learn about the world of natural phenomena about them.

## SCIENCE CLUB

A Science Club member practices on the Morse Code key.

Officers of the Spanish Club are LeRoy Sample, President; May Untalan, Vice President; Eloise Ogo, Corresponding Secretary, and Oscar Perez. Sponsors are Mrs. Marjorie Driver, Mrs. Mary Haughee, and Miss Carol Sporer.

## SPANISH CLUB

The Spanish Club Members.

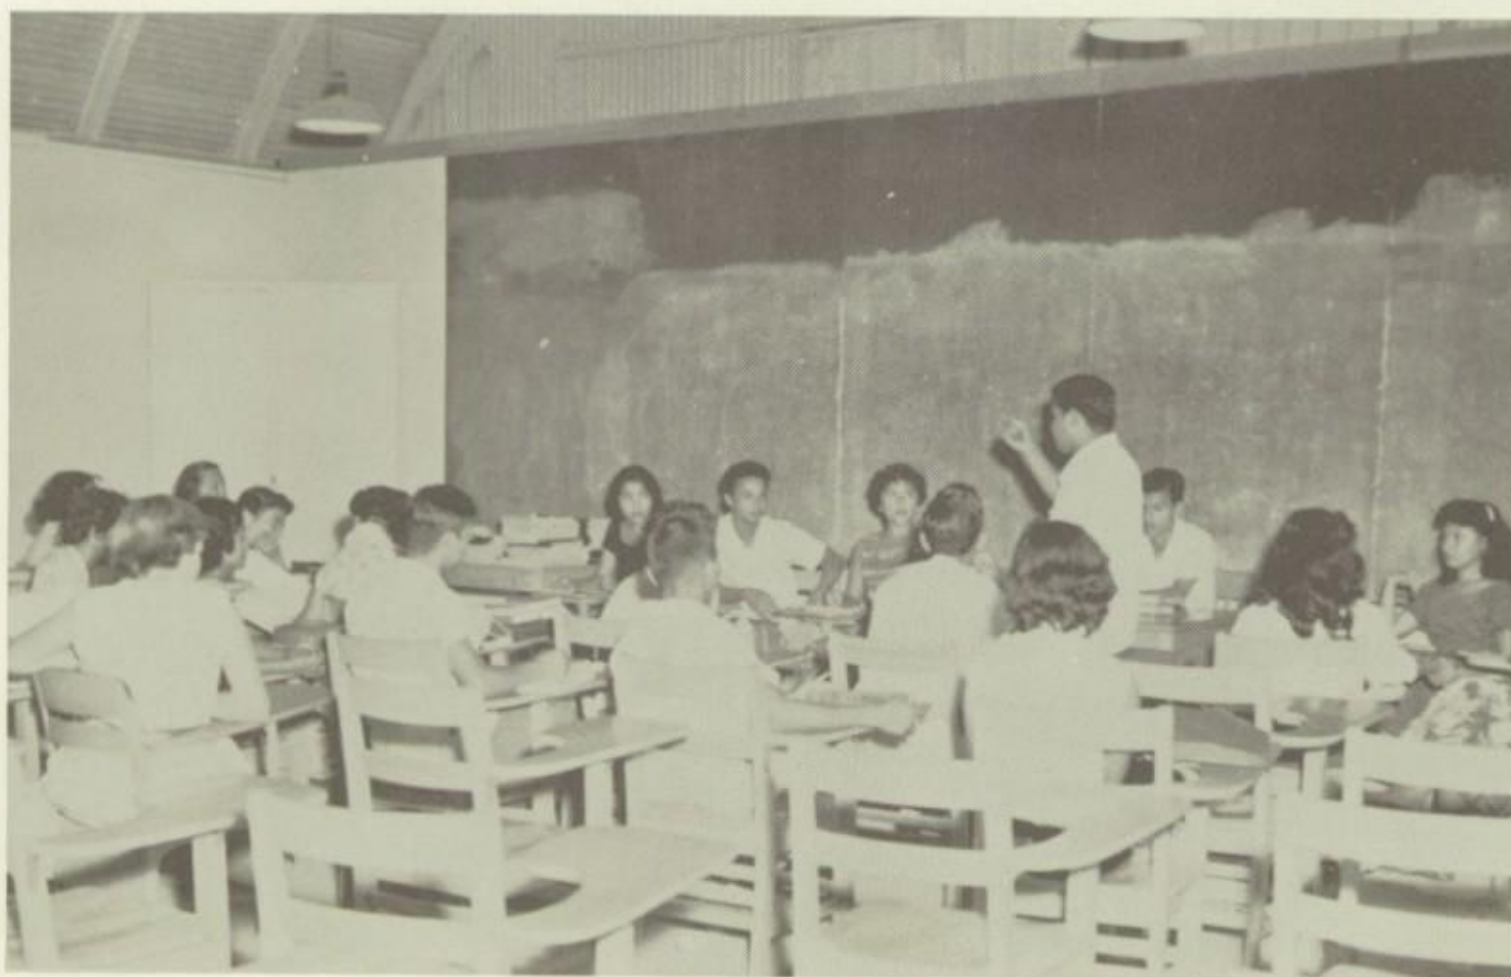

The officers preside over a meeting of the club.

## CIVICS CLUB

The officers of the Civics Club are, left to right: President, Jose Rivera; Corresponding Secretary, Esther Eustagio; Treasurer, Mariquita Castro; Vice President, John Sablan; Recording Secretary, Julia Manley; Reporter, Alfonsina Cruz.

The Civics Club is one of the largest organizations and one of the most active in the school.

# PROJECTIONISTS

The projectionists show films to teachers and students either in J-6 or in classrooms.

The office helpers volunteer for work in the office during their free periods each day, as do the office runners. They do filing, typing, and other clerical work.

# OFFICE SECRETARIES

The students and faculty have always shown the utmost enthusiasm in presenting to the school and its friends the annual Christmas Pageant. This year's program was no exception.

## CHRISTMAS PAGEANT

The cast takes a bow after the final performance in the auditorium: Conchita Camacho, Miguel Salas, Susan Sample, Vicente Franquez, Ana Castro, Le Roy Brown, Jo Beth Nolan, Cliff Dunning, Herbert Leddy, and Priscilla Tenorio. Mrs. Lillie Ellen Gum directed, Elaine Roth headed the production staff as stage manager. Behind the scenes workers were Tex Walker, Pat Poole, Vivian Franquez.

## SENIOR PLAY

Miguel Salas makes a point to Ginger's father, who doesn't receive it especially well.

Ginger poses in her football equipment before the decisive big game.

"And then you said it!!"

Cliff Dunning, as Ed Hoffman, cheers a chorus of "Boola-boola" as Le Roy Brown and Ana Castro wonder.

One of the hit acts in the show. This marks the second year they have appeared with their popular act; a native dance of the Palau Islands.

## JUNIOR

They had 'em hanging from the rafters!!

These two songstresses are shown near the end of their delightful number. Nervous? Shucks! It was nothing at all!

A scene from "South Pacific." Although the sound didn't carry, for lack of a microphone, they made up for it in looks. Result? One fresh skit, well done.

## VARIETY SHOW

Johnathan Sadao sang and accompanied himself on the guitar, which made his solo number doubly terrific.

"Hey! Come on, you pea-pickers, pass the jug around again!"

Johnny Aquino's band played for the Junior-sponsored Sweethearts' Ball.

King and Queen of Hearts, crowned by Mr. Paul Gettys, were Carlos Taitano and Maria Maanao.

## SWEETHEARTS' BALL

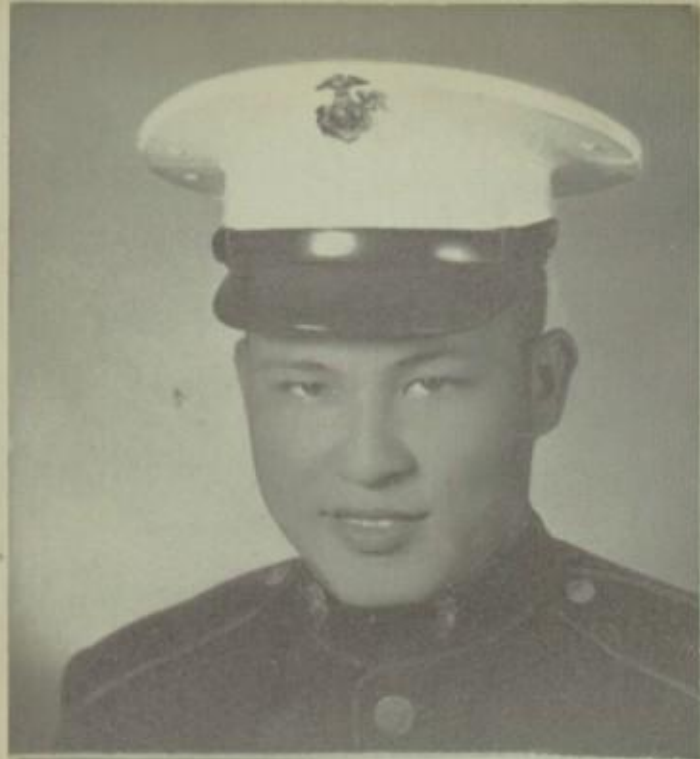

A cross-section of the happy millions who turned out for the occasion.

# SNAPSHOTS

People are more

emotion but by the  
psychological motives of egoism

Love,

A land under God will be praised  
Regardless of how small it is!  
When we look up at the bright sky at night  
And see the stars, the moon, the planets  
Smiling upon us—they are seen, too, over  
The Sprawling continents—we see the equality  
Of all the lands founded by God  
In the Creation Week.

The bells we hear from Sabbath to Sabbath  
Signify Christians living together in unity.

Ours is a blessed island, with its natural green  
Blossoming from month to month throughout the year.  
Food is abundant. We students are helped, too,  
Through the knowledge of dedicated teachers,  
To seek after the abundance of education  
In order to develop further our culture  
As well as our economy.

Let us work, and study cooperatively  
Until the farewell-time comes with its  
"Leave . . . but remember to write to us . . ." and  
"Go your way, then, but return one day to visit  
And talk of the old times . . ."

MARINE DRIVE - AGANA, GUAM, M.I.

To the Graduating Class of '56 G.W.H.S.

Normally this space would be used for my advertising, to encourage you to buy merchandise from my store; however, let's get away from business and talk about you - "Your Beginning" - picking out what you want to be or to do, your future aspects of life.

Perhaps the following may be of some help, I don't know. There are so many different people in this world, and so many ways to go.

When I wake up in the morning, the day after I've graduated what can I do? "Let's see!"

1. I can find a job that will show a future for me, and my future family.
2. I can write stories that would be in demand.
3. I can compose Guamanian songs, for in time they'll be in demand all over the world, like the Hawaiian music, etc. is.
4. I can invent something, for my ideas are fresh and new. Many new things are needed.
5. I can help Guam find its place in the United States; by my ideas, build a new economy for Guam; solve the Utility problem, so all the people for Guam can get power, water, telephones, roads, and higher wages.

I will do something, and can do something. I have been given an education and I'm in the greatest country in the world. It's my opportunity; it's my own fight for success and happiness; it's up to me and me alone. I can do it, as others have done it and are doing it every day. I will work hard, be honest, and reach for my opportunity.

Sincerely,

F.L. Moylan

**Correct  
Vision  
Makes  
It  
Easier**

School work (or any other kind of work, for that matter) goes a lot easier when you can see clearly and without eye-strain. To speed progress at school (or anywhere) correct vision is a "MUST!"
